

## Open Letter to the Town of Kensington

Dear Residents,

K.C.C. has identified badly-needed improvements to the Community Center and will be working in tandem with the K.P.P.C.S.D. in the hiring of an architect and contractor to accomplish the work.

Ideally, the improvements will include a new kitchen, refurbished bathrooms, replacement of the heating system and, if our capital reserves allow, opening up of the west wall of the Community Center to the outside garden area.

Finally, we would like to solicit your ideas on what might be the best use for the area around the old tot lot, next to the Library.

There exists a great deal of talent in this Town, as well as a strong commitment, past and present, to volunteering to participate in projects which improve our community. I am hoping that I can once again prevail upon you and solicit the help of the Kensington community, encouraging you to donate your expertise, your labor and/or your capital in helping us with this initiative, since the project will benefit everyone.

If you are in a position to be of assistance or share our ideas, please contact me at (510) 526-6500 and leave a message regarding what you might be able to provide. Any help will be most welcome.

As this initiative develops, we will be regularly reporting to the community in the Outlook regarding its progress.

Thank you, in advance, for your consideration and assistance.

Bruce V. Morrow, President  
Kensington Community Council
